Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, claims 1-9, in the reply filed on December 14, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 10-18 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected groups 2 and 3, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Pollock (6,698,961).

The Pollock reference discloses a cleaning system comprising: a bottle 4 for holding a cleaning fluid, a brush 3 for cleaning a desired surface being removably affixed to the bottle by a collar 6 having a bottle attaching portion (top portion) and a brush securing

portion (bottom portion); and wherein the bottle, brush and collar are assembled and secured together, the collar 6 affixes the brush 3 to the bottle to produce an integral fluid dispensing and scrubbing unit.

Regarding claim 2, the cleaning system includes a communicating passage between the bottle 4 and the brush 3 to facilitate the direct application of the fluid to a desired surface through the brush 3.

Regarding claim 3, the communicating passageway comprises a tube 5 extending from the bottle 4 into an orifice 3A in a handle 2 of the brush 3.

Regarding claim 4, the orifice 3A in the brush handle 2 is position substantially within a bristle portion 3 of the brush.

Regarding claim 5, the cleaning system comprises a bottle cap 5A for removably covering a spout on the bottle 4, and a nipple (a tube between cap 5A and valve 5B) formed integrally with the bottle cap 5A defining an opening for dispensing a fluid contained in the bottle in a desired location.

Allowable Subject Matter

5. Claims 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bell-Irving, Nagely, Eagle, Bergmann et al teach a cleaning system having a bottle, a brush and a collar.
